

Juno® Hyperbolic Trims compared to standard cone trims

Juno hyperbolic trims provide a silent ceiling effect.

Standard cones trims in the ceiling.

Hyperbolic Trims

A breakthrough in the art and science of recessed lighting

In 2012 we pioneered the hyperbolic trim with the introduction of Indy-brand hyperbolic trims for use in commercial interiors. Never before had the industry been able to enjoy high luminaire efficiencies and extremely low aperture brightness!

Hyperbolic trims are now available for Juno-brand 4-, 5- and 6-inch 600, 900 and 1400 lumen residential/light commercial IC and TC rated downlights. Easy to install – they are as simple as installing a standard trim.

JUNO®

Juno® Hyperbolic Trims

Silent Ceiling™ trims for residential and light commercial interiors

4" Hyperbolic Trims

Compatible Housings

IC1LED G4 Series
