

- High Quality, Heavy Duty, Steel Construction
- Standard EIA-310-D Mounting Hole Pattern
- Split side panels offer a lighter, simpler removal process
- Perforated Front and Rear Doors Provide Enhanced Airflow, Reducing Power Consumption

FEATURES

- Large open base for cable entry and exit
- 180 degree door swing provides complete equipment access
- Two piece keyed side panel construction
- Fully welded construction
- Heavy duty mounting rails with #12-24 tapped holes
- Accepts 12" ladder rack

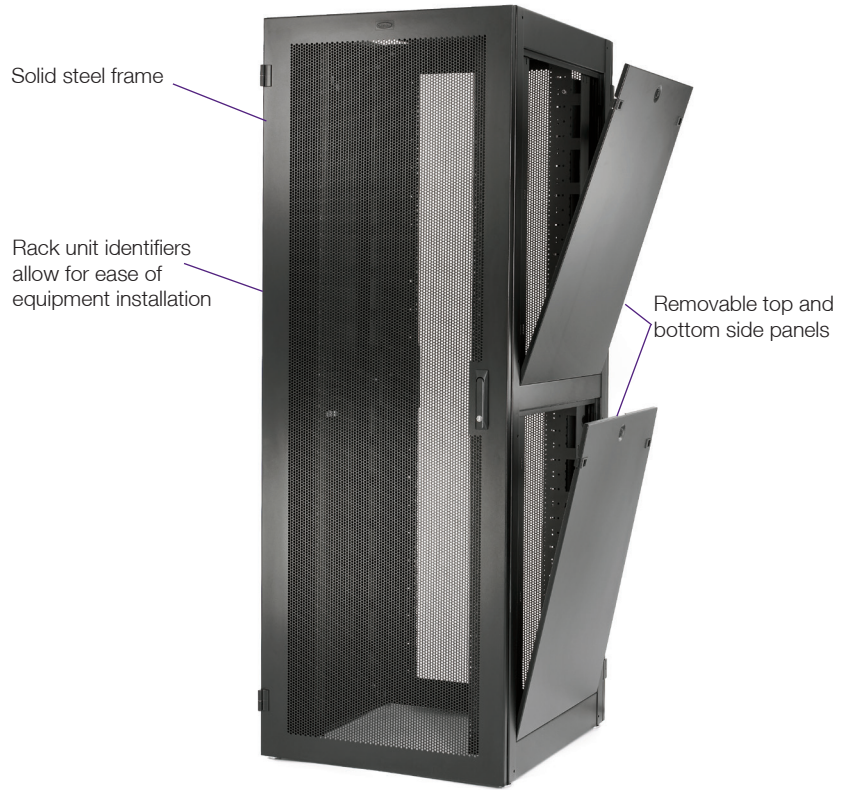

SPECIFICATIONS

- 2000 lb load capacity
- 1000 lb Z4 seismic
- 19" EIA Rack Mounting
- Fully welded construction
- Heavy duty 12 gauge adjustable mounting rails
- Front and rear doors feature a keyed swing handle for additional security

STANDARDS

- EIA-310D compliant

HUBBELL
Enclosures Network Cabinets

Hubbell's H2 network cabinets feature the latest in high quality construction and design. Hubbell's network cabinets combine a static load rating of up to 2,000 pounds with fully welded steel construction. The enclosures provide a solid solution for housing panels and managing large amounts of cable. Each cabinet includes two sets of sliding front and rear rails for critical equipment mounting. Moveable equipment mounting rails can be easily aligned using the interal mounting indicators. Perforated front and rear doors enhance airflow to reduce power consumption. Front and rear mounting rails contain RU numbering to facilitate quick and easy location of attached equipment. Combine our network cabinets with cooling, cable management and full swivel caster accessories to create a custom solution that fits your exact requirements.

APPLICATIONS

- Network Equipment Storage
- Data Centers
- Telecommunications Room
- Computer Rooms

ORDERING INFORMATION

Network Cabinet

All H2N cabinets are 30" wide and have #12-24 threaded rails

Catalog No.	Rack Units	Height	Depth	Color
