

eXtreme® Cat 6A Channel-Rated QuickPort® Connector

APPLICATION

The eXtreme Cat 6A Channel-Rated QuickPort Connector exceeds all channel performance requirements in ANSI/TIA-568-C.2 and ISO/IEC Class E, from 1 MHz to 500 MHz to support the IEEE 802.an standard for 10 Gigabit Ethernet over UTP Cable. The connector is designed to be used with all QuickPort compatible products and features patented injection-molded Cone of Silence® covers to eliminate alien crosstalk (AXT). The connector includes patented Retention Force Technology to promote consistent network performance over the life of the system. Unique Pair Separation Towers facilitate quick, easy terminations. The connector is configured in a 180-degree configuration such that the punch down field is in the back, allowing for rear termination.

FEATURES

- Cat 6A/Class E_A Channel Performance
- Patented Retention Force Technology (RFT) protects against tine damage from 4- or 6-pin plugs
- · Alien crosstalk suppressed by Cone of Silence, metalized body, and new printed circuit board
- Pair Separation Tower (PST) design facilitates separation of Cat 6A conductors
- · Patented, dual-layer wiring label simplifies punchdown and reduces rework

DESIGN CONSIDERATIONS

- Use in any QuickPort housing to support Cat 6A UTP connectivity in surface-mount, flush-mount, or modular-furniture outlets and field-configurable panels
- Can be used in conjunction with other QuickPort snap-in modules for voice/data/video applications over UTP, coax, fiber
- To identify ports, use different colored modules for each application (full selection of ANSI/TIA-606 compatible colors - 13 available)

COUNTRY OF ORIGIN

USA

SPECIFICATION

The connector shall meet or exceed the requirements for Category 6A channel-level performance described in ANSI/TIA-568-C.2 and ISO/IEC Class E_{Λ} . The modular connector shall be snap-in style. The connector shall also be in compliance with all National Electrical codes; compliant with ANSI/TIA-1096-A; UL Listed; and independently verified. In addition to Cat 6A compliance, the connector shall have the ability to support high-megabit and shared-sheath applications. All plastics used in construction of connector bodies shall be fire retardant with a UL flammability rating of 94V-0. All terminations shall use 110-type insulation displacement connectors (IDC). The connector shall provide a ledge directly adjacent to the 110-style termination against which wires can be directly terminated and cut in one action by the installation craftsperson. Connector wiring is universal and will accommodate installation color codes for T568A and T568B wiring schemes. The termination field shall be in the rear for easy access. The connector shall include an alien crosstalk attenuation cover (Cone of Silence) to protect the termination field from induced noise from adjacent connectors. The modular connector shall fit all other installed telecommunications wallplates, outlets, field-configurable patch panels, and patch blocks. The connector shall be available in 13 ANSI/TIA-606 compatible colors.

STANDARDS COMPLIANCE

- ANSI/TIA-568-C.2
- ISO/IEC 11801 Class E.
- IEEE 802.3an 10GBASE-T
- cULus Listed
- ANSI/TIA-1096-A (formerly FCC Part 68)
- IEEE 802.3at (Type 1) Power over Ethernet (PoE) up to 15.4 watts
- IEEE 802.3at (Type 2) PoE+ up to 30 watts
- IEEE 802.3bt (Type 3) PoE+ up to 60 watts
- IEEE 802.3bt (Type 4) PoE+ up to 100 watts
- Cisco Universal Power Over Ethernet (UPOE) up to 60 watts
- Power over HDBaseT™ (POH) up to 100 watts

PHYSICAL SPECIFICATIONS

Dimensions: See page two

Materials: Connector Body: High-impact, fire-retardant

plastic rated UL 94V-0

Spring Wire Contacts: High-quality, copperbased alloy, plated with 50 micro-inches of gold for lowest contact resistance and maximum life

Environmental

Conditions: Storage Temperature: -40 °C to +70 °C

Operating Temperature: -10 °C to +60 °C

WARRANTY INFORMATION

Limited product and limited extended warranties are rendered VOID if the installed structured cabling system is used for Power over Ethernet applications that exceed the product's specified power rating.
