△SPIKESHIELD™

Surge Protective Devices

- Plug-in style surge suppression devices

- Single outlet and three outlet models

- Optional phone line and CATV protection

- 750 joules of all mode protection

- EMI / RFI Noise Filter

SPECIFICATIONS

Operating Specifications:
■ MCOV	130V
■ Operating Frequency	50/60HZ
■ Joule Protection L-N, L-G, N-G	750j
■ Max Surge Current	13.5kA
■ Operating Temperature	-40°F to 160°F

Performance
■ UL VPR (HBL3PI750)	400V
■ UL VPR (HBL1PI750 series)	500V
■ In	3kA
■ EMI / RFI Noise Rejection	-20db

Phone Protection (HBL1PI750M)
■ 1 in 1 out RJ11	350V Clamping

Coax (HBL1PI750C)
■ 1 in 1 out F-Type	330V Clamping
■ Max Surge Current	4.5ka
■ Insertion loss at 10 MHz	<2.0dB

Physical Specifications
■ Housing Type	Non-metallic
■ Color	Office White

Plug-in style surge protectors are a low cost way to turn a standard outlet into a surge protected outlet. Units can be carried in a laptop case and utilized at airports, hotels, and off-site meetings. These plug-in style devices can also be carried in a tool pouch for use on the plant floor or at construction job sites.

SpikeShield™ single outlet plug-in style surge protectors feature a surge LED indicator. The offering includes three models, single outlet, single outlet with phone line protection and single outlet with CATV protection.

SpikeShield™ three outlet plug-in style unit offers three 15A 125V outlets, green LED power indicator and red LED surge protection indicator.

All plug-in models offer 750 joules and 13,500 amps of surge protection.

STANDARDS/LISTINGS

■ UL 1449 3rd Edition

APPLICATIONS

■ Flat screen TV	■ Entertainment center
■ Laptop	■ Kitchen appliances
■ Garage door openers	■ Smart board connections
■ Invisible fence controllers	■ Electronic phone systems
■ Plant floor use	■ All sensitive electronics
